Static Tourism Website - Mini Project

This mini project involves the creation of a **Static Tourism Website** using only HTML, CSS, and images. The project must be completed within **1 week**. This website will not include dynamic functionality or server-side scripting. The goal is to design an informative, attractive, and well-structured site showcasing various tourism-related information.

The following pages must be included:

1. Home Page

The main landing page introducing the tourism website. It should feature a banner image, welcome message, and links to other pages.

2. About Us Page

Provides information about the organization or project team behind the tourism website. Include mission and values.

3. Destination Page

Showcase various tourist destinations with images and short descriptions. Each destination should be visually appealing.

4. Tour Packages Page

List different tour packages available with names, prices, durations, and key highlights.

5. Gallery Page

Static Tourism Website - Mini Project

A visual gallery of tourist destinations, customer experiences, or attractions. Use a grid layout for images.

6. Services Page

Detail the services offered such as travel booking, hotel reservations, guided tours, etc.

7. Contact Us Page

Include a form or contact details like phone number, email, address, and possibly an embedded map.

8. FAQ Page

Answer frequently asked questions regarding travel, booking, payment, etc. in a Q&A format.
